SITUATION SUMMARY

California State University East Bay Campus (CSUEB)

- On 04/10/15 at 2029 hours the California State Warning Center (CSWC) received a report indicating that authorities were investigating a potential threat against California State University East Bay (CSUEB).
- Per the Cal OES Law Duty Officer (LDO): The University Police Chief advised that they are attempting to validate the threat and will advise when the investigation is completed. The University will be closed 04/11/15 except for a few small events. The Chief advised they will be fully staffed on 04/11/15 and have coordinated with Hayward Police Department for resources if needed.
- The university is not requesting any assistance at this time.
- The LDO has made contact with Region 2 RMAC and Alameda County Sheriff and will continue to monitor the situation.

Cal EOC Incident - 2014 Drought

SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

· No significant Weather Watches or Warnings are in effect.

Active Weather Warnings, Watches and Advisories by County: http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

Eureka Weather:

A weak front will bring light rain mainly to areas north of cape Mendocino early Saturday morning. Another period of Light rain will be possible late Monday through Monday night.

Medford Weather:

It will be cloudy with a chance of rain and snow this morning, then there will be a chance of rain showers this afternoon. Snow levels will reach 5500 feet rising to 6000 feet in the afternoon with highs in the lower 50s to lower 60s. West winds will be 10 to 15 mph with a chance of precipitation at 30 percent. Tonight will be partly cloudy with lows in the lower to mid-30s. Northwest winds 10 to 15 mph will shift to the northeast 5 to 10 mph after midnight.

Reno Weather:

High pressure over northeast California and western Nevada will bring above average temperatures through Monday. Winds will increase Monday and Tuesday as a strong cold front moves through the region. It will be cooler Tuesday with a chance for light showers north of Interstate 80. Well above average temperatures will return by late next week.

San Francisco Weather:

A ridge of high pressure will maintain dry and mild weather today and tomorrow. A low pressure trough approaching the west coast early next week may produce rain across the far northern part of our region on Monday night otherwise dry conditions will prevail. A warming trend is then forecast during the second half of next week as a stronger ridge of high pressure builds over California.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Weak weather system brings a slight chance of showers to the northern interior mountains today otherwise dry with warming over the weekend. Another relatively weak system moves through late Monday into Tuesday morning bringing cooling with a chance of showers mainly over the mountains north of I-80. Warming midweek through Friday under building high pressure.

Hanford Weather:

A ridge of high pressure will bring dry weather and above normal afternoon temperatures to the central California interior through Monday. A dry cold frontal passage Monday night will be followed by slightly cooler weather Tuesday.

Southern California:

Los Angeles Weather:

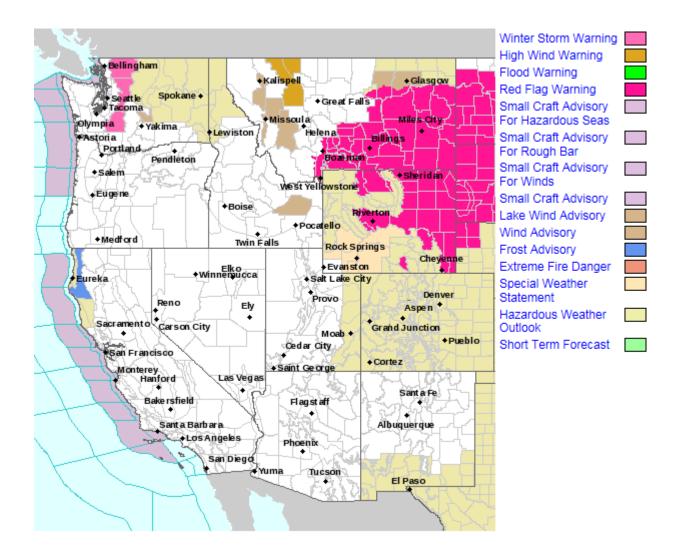

A high will set up over the area this weekend and will raise temperatures to above normal. Onshore flow early next week will bring a marine layer and a slight cooling trend. By midweek high pressure and offshore flow will bring clear skies and above normal temperatures through the end of the week.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties: Slight warming through Sunday under weak high pressure. For Monday and Tuesday a trough of low pressure moving inland to the north will bring stronger onshore flow with cooling gusty west winds in the mountains and deserts with night and morning low clouds and fog extending into portions of the inland valleys. For Wednesday and Thursday high pressure aloft and weak offshore flow will bring a warming trend followed by slow cooling for next weekend.

Southeast California Weather:

A slow warming trend will continue today as high pressure ridging gradually rebuilds over the desert southwest. Another area of low pressure will move into the area with the potential for another period of slightly cooler and unsettled weather Sunday before warmer temperatures and mainly clear skies return to the region early next week. Dry weather and above seasonal normal high temperatures will continue through the end of next work week.

RECOVERY ACTIVITIES

Round Fire, Mono County

• Site sampling and hazardous materials recovery of the affected properties began 03/14/15. Cal Recycle began debris removal operations 03/23/15.

Project Totals as Day 13:

38	Homeowners who registered for the removal project.
3	Homeowners that denied entry.
38	Initial site assessment/site documentation complete.
38	Asbestos survey completed and results received.
15	Debris removal completed.
9/9	Confirmation sampling completed/approved.
0	Erosion Control Completed.
0	Approved by County for Building Permit.

Estimated Project Total Tonnage for the Project as of Day 13:

Category	Total Tons
Debris and Ash Disposed	1,972
Soil Disposed	1,789
Metals Recycled	799
Concrete Recycled	1,609
Total All Categories	6,169

Estimated Daily Tonnage:

Category	Day 13	
Debris/Ash	305	
Soil Disposed	170	
Metal Recycled	78	
Concrete Recycled	165	
Total	718	

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take
 place on alternating Wednesdays.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur on a weekly basis.

CAL OES 2014 DROUGHT
